

EUROMATE OFFERS ALL-IN SOLUTIONS FOR AIR CLEANING

Euromate has over 40 years of experience in the field of air cleaning. This provides in-depth knowledge of indoor air and removal of air pollutants.

For optimal use of the air cleaner regular maintenance by a professional is recommended. A service contract can be agreed with our sales organization. There are various maintenance agree-

ments possible, depending on the filter choice and the degree of air pollution.

Your authorised Euromate distributor:

Euromate enables people to breathe pure air. For the improvement of indoor air quality we offer high-quality, contemporary products that effectively remove a broad range of pollutants. Years of experience, expertise and service orientation allow us to provide effective air cleaning solutions to our (international) customers.

VISIONAIR AIR CLEANER

Remove tobacco
smoke effectively

A suitable solution for a smoke-free environment

Euromate offers a complete line of innovative products, all designed to assist in the removal of unwanted tobacco smoke. Create an environment in which both smokers and non-smokers can work perfectly together without the annoyance of tobacco smoke. Whether you prefer a separate smoking room or a designated smoking area, we offer you the perfect solution.

In many countries, smoking is prohibited by law within workplaces and public buildings. The assortment of Euromate offers air cleaners, smoking tables, ashtrays and even smoking cabins. A concept that perfectly matches your specific smoking policy.

Smoking room
Creating a smoking room is a quite simple solution that will satisfy your smoking employees and visitors. Especially as smoking outside is often not an ideal solution, it conflicts with the corporate image and employees lose valuable working

time. Depending on your needs, we offer various air cleaners to remove tobacco smoke.

VisionAir
This effective air cleaner filters tobacco smoke from the air inside a smoking room. Not only does it optimise your entire indoor air quality; it also enhances your work environment. Offering a proper smoking solution will result in a noticeably positive effect on work performance and productivity. In a smoking room, VisionAir¹ and VisionAir² can best be mounted to or into the ceiling. If desired, VisionAir¹ can also be mounted against the wall, or put on a stand (VisionDisplay).

For the filtering of tobacco smoke, the VisionAir is equipped with an electrostatic filter: ElectroMax. This filter can be cleaned and re-used.

Filter over
99%
tobacco smoke from the air stream

main filters for optimum air purification

A clear smoking policy

It all starts with a clear smoking policy. You underline your healthy vision of working conditions by choosing a professional air cleaning system. The Euromate air cleaners effectively filter the environmental tobacco smoke from the air. You can expand the air cleaner with various options to meet your specific demands.

ElectroMax

AirMonitor

An automatic sensor which improves the operation process. It measures the air pollution caused by tobacco smoke in the room and automatically adapts the fan speed, ensuring optimal indoor air conditions and saving energy.

OdourFree

Absorbs penetrating smells. Recommended, for example, for pubs and the hotel- and catering industry.

VisionDisplay

A stand on wheels, available in two heights. Extra flexibility because the air cleaner can be moved around.

“ Thanks to the excellent cooperation and the flexibility we reached a unique customised solution. We notice that guests are very happy with the new smoking rooms. ”

Design

Fits into any interior

VisionAir is available in two colours: off-white and black. Thanks to its stylish design, VisionAir will blend in practically any interior. In addition, the air cleaner has a low noise level and is very user-friendly. As standard the air cleaners are equipped with FreeBreeze cups, adding an aromatic freshness into the room.
